

DigiPeel™

Your All-In-One Solution for Digitally Personalized Membership Cards with Variable Data

DigiPeel is an integrated membership card that is printed and personalized completely, in one pass, through one of FormStore's digital printing presses. After being simplex or duplex digitally printed with graphics and variable data, it is converted into an integrated card with laminate films, up to 4 mil each side. The card is then precision die-cut creating an affordable membership card that is easily peeled out the document and is durable enough for long-term repeated use.

Note: DigiPeel membership cards are not designed to be run through laser printers after they leave FormStore Incorporated.

Formats:

- 1-Up
- 2-Up

Sizes:

- 8 1/2" x 11"
- 8 1/2" x 14"

Materials:

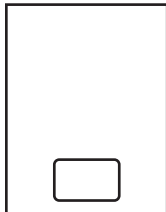

- 60lb Digital Cover

Laminate Options:

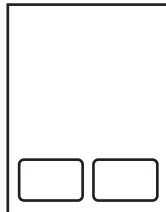

- 2 mil front/ 2 mil back yields 11 mil card
- 2 mil front/ 4 mil back yields 13 mil card
