

PerfCard®

Value-Priced Perforated Blank Custom Membership Cards

PerfCard membership cards are a quality product using premium papers for membership card applications. The price advantage for these temporary cards is unbeatable! The PerfCard is an integrated paper card with a 2mil imagable laminate film applied to the back for added protection and durability. A gloss or matte imagable laminate film may also be applied to the face of the card. After the document is pre-printed and personalized/imagaged on a laser printer, the card is perfed-out for use by the end user. The carrier and integrated card can be pre-printed up to 4 color process on the front and back and run through a laser printer for imaging and personalization. PerfCards are available with 1, 2, 3, 4 or 6 cards per sheet in a multitude of standard and custom card positions. All PerfCard membership cards are pre-printed offset with heat and scuff resistant inks formulated to dry quickly so they are not tacky and do not offset in the imaging equipment.
